

7.2a Multi-Meter Accounting Long Poll (複数メータを読み出すロングポール<OF>)

要約: ホストがeGMから4バイトBCDメータ(10進数8桁)を複数個、取得するロングポール;  
→ 基本形式(マルチメータポール): ホスト: タイプRメッセージ(7.1a) を送信; eGM: レスポンス(7.2a)を返す;

Several long polls that allow the host to obtain multiple meters from the gaming machine by issuing a single long poll have been defined.  
The message format from the host is detailed in Table 7.1a.  
The response from the gaming machine varies, depending on which long poll the host sends.  
Each multiple meter accounting long poll response is detailed separately in Tables 7.2a through 7.2d.
